

SEAT COVERS

Designed to last, manufactured to fit, enduring heavy duty materials for longevity.

Made from the same materials as used and specially produced for fabric Silos which can take loads up to 9 tons. Very strong in terms of abrasion and tearing and also used for the manufacture of "Snow Socks". This lighter version high tenacity fabric which is a strengthened Polyester will use 500 detex yarn. To make the product more durable than other PVC materials we apply a Nano waterproof coating to the reverse of the material which repels water that comes in contact with the fabric surface. Designed to fit the contours of the vehicle manufacturers seat this heavy duty seat cover which is also designed for ease of fitting.

- **Hi-Tec Material**
- **Antic Static**
- **Water Proof resistant**
- **Extremely good abrasion properties**
- **Tear resistance**
- **Textured pattern seat and back**
- **Heavy Duty wear.**
- **Easy fitting design saves fitting costs**
